OVERALL INTERNSHIP RECORD

My college is a one-stop solution for Gen Next Managers. It transformed me into a professional from a student. Two years is a very short time to learn everything that college teaches you. Support from my lecturers and love from my friends made it even more special.

Balumahendra Narahari

Pradesh, I had a lot of apprehensions while the way to bangalore. But guidance and support I got, I cleared Acuity knowledge partners (Moody's Analytics) while I was still in my 3rd sememster and this not only boosted a lot of confidence in me but my parents and faculties too. , I am very glad to get into this college which helped me to gain knowledge and grow professionally.

I'm thankful to the college and all faculty members who helped me to develop my skillset. Thanks to Placement Department for guiding me. Thanks again to all the faculties for helping me in building my career.

TESTIMONIALS

During my college days, I had countless opportunities to develop analytical skills, leadership & proactive thinking. Our college has one of the most sought after program called as the "Industry Integrated Program" that gives the students an opportunity to work with various companies and get hands on industry exposure before graduating. These attributes are the key reasons because of which I was successfully placed at L&T Technology Services as an intern and got placed for final job in Big Basket. Big thanks to all my faculty members and friends for the journey so far.

Adwaith Nair

My college groomed me not only academically but I also imbibed other soft skills, corporate training, SAP module, practical exposure to industry in course duration which plays a key role in job search today. Support from faculty, placement team, Director was a turning point for me which helps me even today in the workplace and in daily routine. Thank you My College

Chintan Goyal

I am placed at COGNIZANT. I had an amazing journey with this college, whatever is me today, all the values I gained I owe it to AIMS IBS. I was a topper in Degree, and I came all the way to Bangalore in search of success. Here I learnt got success must be achieved and retained. Growth is a part of life. But attitude plays a bigger role. I shall retain this treasure throughout my life

Varshini Ravi

Right from the time I started searching for B schools, I heard about the college. The key points that caught my attention about the college are its reputation and its position among top B schools. It has been nothing less than what I had hoped for. Supportive seniors and faculty, quality education, real world experiences, and amazing friends.

The growth I have seen in myself is amazing. My sincere thanks to all the faculty members, mentors and everyone for their support. I'm carrying along with me beautiful memories of this place and will always cherish them. Thank you for making this journey so pleasant.

I'm very fortunate to be an alumni here. The Institute provided me immense growth opportunity to excel in my professional life. I would like to share the uniqueness to the world so that other students like me can make the most of it. Management and the faculty commitment to the students' development is commendable and dependable. Industry integrated training program makes us to be competitive and more employable. Multiple opportunities for placements till student is happy.

Shashikanth Nayak

My college, the place where it all began. Feels like yesterday that I became a part of something that would stay with me for eternity. Every time I think of it, brings a pleasant smile. Everything that I am today, owes a major part of it to this place. Right from the very beginning, we were taught to dream big and always aim for the stars. The best part about being a part here is that by the time curriculum starts, we tend to know everyone so well that the learning experience eliminates the fear of losing. The ice breaking program "Roots to fruits is designed in a way that makes us familiar with our surroundings, our peers, our guides and support in a manner that we begin to feel for one another like one big family. I have earned my friends here, I have earned my passion here and most of all I have earned my dream here. This is a place that teaches life lessons through management principles and places the steering in your hands, it will then depend on you how and where to take your life to. I would like to thank Directors and my batch mates, a big shout out to all of you for making my time a wonderful one.

The MBA program at AIMS IBS is a unique way of learning Management. Being a student at this college, I can say one thing for sure, I had a great experience here and a supportive environment. I am pursuing an MBA in Marketing Specialization. I always wanted to make my career in marketing because marketing has always been my passion. I would like to thank the AIMS IBS College and Placement Department who helped me clear the interviews which were 3 rounds in G4S for the Management Trainee Job Role. I feel honored to be a part of this college.

I consider that joining this college for MBA was one of the best decisions of my life. After graduation, I had clarity on doing my Masters to provide me the foundation for entering the corporate world, however, the journey throughout the course gave me the right focus and enabled me to become an Entrepreneur today. Highly motivated Professors and Faculty teach us not only the Syllabus but also soft skills and ethics that have direct application in our professional lives.

I accepted the offer from Finnastra after completing my internship and eventually handled the responsibility of Client Engagement for US and Pan-India as my last role before moving on to having my own Start-up.

My message to fellow MBA Students a plethora of opportunities will be available at your disposal, which you may not realize now, but try to utilize them to your benefits.

I had a great learning journey here. Our batch started with an induction period (Roots to Fruits) of 1 month which is very unique and different learning experience from any other college. It helped us to adapt to the college environment and friends very easily in less time. As every student of AimsIBS will be under guidance of particular mentor they will get the guidance, suggestions and help needed from them always. Due to Corona, our 2nd semester was completely based thru online sessions. WE still didn't face any issues in understanding the classes due to a continuous support from our lecturers and their understanding. We didn't miss practical learning even when we were having virtual sessions. As our college offered industry aligned program, I have got placed in Reliance Retail in my 3rd semester along with OPPO. I made my choice based on my future expectations. So I feel lucky to be a part of AIMS IBS family

I joined AIMS IBS with huge expectations, and it's safe to say that the experience given was beyond expectations. They made us comfortable and bonded with other students through roots to fruits program. This is an industry integrated program which allowed us to know about the corporate systems. Though we lost 6 months during lockdown, but we had regular online sessions on various topics of career progression by top class professionals. The placements are assured and placements department provided opportunities according to the students' requirement of job roles and industry in general. As I wanted to make my career in fashion retail, and so AIMS IBS has provided me an opportunity at Max Fashion-Landmark Group, as a Management Trainee. I am currently working with MAX fashion and looking forward for immense growth potential.

I hail from Mangalore. I completed and came to Bangalore to takeup MBA. I knew that due to Corona, job market is not so cordial. I was prepared for tougher times. So started attending interviews. But when I cleared my Campus Placement my happiness had no direction. There were three rounds- one screening and two technical rounds. The rounds were very stressful, but the outcome was positive. I would like to thank all my faculties for teaching me financial management and helping me overcome my communication barrier. I would also like to thank the placement team for their constant support and JD training which helped us clear our interview. Thank you.
